

Wired Thermostat TSH 002 WIFI | black

Description

Podtynkowy regulator **TSH 002** jest dedykowany do kontroli temperatury indywidualnej strefy grzewczej wodnego ogrzewania płaszczyznowego, mat elektrycznych lub bezpośredniego podłączenia urządzenia grzewczego. Regulator temperatury pozwala na znaczne oszczędności, dzięki możliwości precyzyjnej kontroli zadanej temperatury.

Regulator pracuje w trybie dobowym, tygodniowym lub ręcznym.

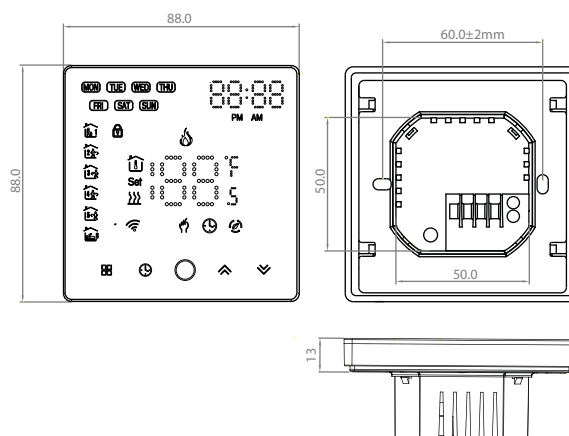

Technical data

Type:	wired/WIFI
Visible depth:	13mm
Colour:	black
Max medium temperature (continuous):	45°C
Model:	Two-point controller
Rated voltage:	230V 50/60Hz
Rated current:	3A
Mounting method:	Flush-mounted (recessed)
Protection rating:	IP20
Width:	88mm
Height:	88mm
Net weight:	250g
Gross weight:	280g
With thermal feedback:	no
Temperature range:	5 - 35°C
Auxiliary switch:	no
Display:	yes
Programming via buttons:	yes
Programming via knob:	no
Backlight:	yes
Relay type:	Voltage free (dry contact)
Model:	TSH 002 WIFI B
Identification number:	06038407

Basic properties

- Possibility of working in manual mode (permanently or temporarily)
- Compatibility with additional floor temperature sensor
- Memory backup function (controller settings are preserved during power outages)
- Anti-freeze function
- Made of fire-resistant PC+ABS material
- Compatible with TSH L800, TSH L801 control panel or any other
- Mounting options: Fits standard 86mm square backboxes or 60mm round backboxes
